25X1

1. On 10 and 11 December 1950, no emplaced AA guns or AA gun emplacements were observed at the railroad bridge south of Juben (O 52/A 79) in the direction of Breslau, or at the bridge to the north of the town in the direction of Grossen. These observations were confirmed by local residents. *
2. No AA gun emplacements were observed at the road bridge across the Neisse River at Forst (O 52/A 77) or at the railroad bridge in the direction of Breslau on 11 and 12 December 1950. *
3. Neither emplaced AA guns nor prepared AA gun emplacements were observed at the bridge across the Neisse River at Horka (O 52/A 92) on 13 December 1950. **
4. German policemen guarded all the bridges across the Oder and Neisse Rivers.

25X1

* Comment. The information confirms the observations of early December.

25X1

** Comment. This is the first information on the bridge at Horka. The statement is credible since the other bridges across the Oder and Neisse Rivers are also not provided with AAA protection.
